

June 13, 1929.

Mr. S. E. Tanner,
Loa, Utah.

Dear Sir:

RE: BOUL CREEK DIST.

I have your letter of June 12 with reference to the appointing of a commissioner by this office for distribution of waters of Boul Creek.

I assume that this request originated with the Halls' who have, from time to time, sought the appointment of a commissioner on Boul Creek. Unfortunately there has never been any agreement among the water users on Boul Creek as to who shall be appointed and I would make an appointment myself if satisfied that the compensation and expenses would be forthcoming.

Last Fall a petition was sent to this office for the appointment of a water commissioner on Boul Creek signed by Columbus R. Hall to which I replied on Sept. 12 as per enclosed letter. My understanding is still that, except during flood season, there is little if any water available for irrigating the land covered by the Hall applications. As the flood season is nearly over I do not see the necessity of having a commissioner appointed at this late date.

Yours very truly,

State Engineer.
